## Objective

---

Hi My name is Ireneaus and am a full stack developer, proficient in HTML CSS JavaScript(vue.js, Nuxt.js) TailwindCss, Bootstrap, Python, Django, Django rest framework, I bring a wealth of experience in both refining existing web pages and crafting new ones from the ground up. My comprehensive skill set allows me to seamlessly integrate frontend elements while ensuring optimal user experience and visual coherence across your website.

## Experience

---

- Freelance-Golden wealths** 2020 - 2020  
Full Stack web developer  
In 2020, I had the privilege of collaborating with a valued client, [www.goldenwealths.com](http://www.goldenwealths.com), to create an innovative and user-centric web platform. As the sole Full Stack Developer for this project, I undertook the responsibility of designing, developing, and delivering a dynamic website that catered to the unique needs of the financial services industry.
- Freelance-Digital Assets** 2022 - 2022  
Full stack web developer  
In 2022, I had the privilege of collaborating with another valued client, [www.digitalassetsgrowth.com](http://www.digitalassetsgrowth.com), to create an innovative and user-centric web application. As the sole Full Stack Developer for this project, I undertook the responsibility of designing, developing, and delivering a dynamic website that catered to the unique needs of the financial services industry.
- Springfield Investment** 2023 - 2023  
Full Stack web developer  
In 2023, I had the privilege of collaborating with a valued client, [www.springfieldinvest.com](http://www.springfieldinvest.com), to create an innovative and user-centric web platform. As the sole Full Stack Developer for this project, I undertook the responsibility of designing, developing, and delivering a dynamic website that catered to the unique needs of the financial services industry.

## Education

---

- Nigeria maritime university** 2020  
Nautical Science  
3.9

## Skills

---

- HTML5
- CSS3
- JavaScript
- vuejs
- Nuxt.js
- TailwindCss
- Python
- Django
- Django rest framework
- Bootstrap 5
- Web development
- Git & Github

## Projects

---

- Digital Assets**  
Digital Assets is a crypto and forex trading investment platform, I was opportuned to carry out this project of building their full stack web application. It was a great experience for me during the process of developing

Tech stack: HTML, CSS, TailwindCss, Vuejs, Nuxtjs, Python, Django Rest Framework

- **OKI'S STORE**

I independently developed This web project utilizing HTML, CSS, and JavaScript with Vue.js and Nuxt.js frameworks, integrated with the Fackstore API. This e-commerce platform features key functionalities such as cart and wishlist management, implemented across pages including Home, Shop, Product, Cart, Wishlist, and Checkout. This project showcases my proficiency in front-end development and API integration while highlighting skills in Vue.js and Nuxt.js

- **Springfield Investment**

I spearheaded the development of SpringfieldInvest.com, an investment-focused website for a client, leveraging a tech stack encompassing HTML, CSS, JavaScript, Vue.js, Nuxt.js, Python, and Django frameworks. This platform offers users an intuitive investment experience while showcasing my proficiency in full-stack development. Key features include seamless user interactions, robust backend functionality, and a visually engaging interface

- **ISLS URL SHORTENER**

I designed and implemented a URL shortening service, hosted at isls.netlify.app, employing HTML, CSS, JavaScript, Vue.js, Nuxt.js, Python, and Django. This project seamlessly shortens URLs while generating QR codes for easy sharing and accessibility. The integration of Python and Django for QR code generation adds functionality to the platform, showcasing my diverse skill set in full-stack web development

- **Twitter Clone**

I developed a Twitter-like platform <https://twitter-xx.netlify.app>, incorporating essential features such as tweeting, replying, nested replies, liking tweets, and user profiles. This project utilized HTML, CSS, JavaScript, Vue.js, and Django, showcasing a robust backend built with Django for managing user interactions and content. The absence of Nuxt.js emphasizes the pure Vue.js implementation, highlighting my proficiency in front-end development and full-stack architecture

- **My Portfolio**

My portfolio <https://ireneaus.netlify.app>, is a testament to my proficiency in front-end technologies, featuring a sleek and responsive design crafted with HTML, CSS, JavaScript, Vue.js, and Nuxt.js. This showcase of my work illustrates a keen eye for design and a strong grasp of client-side development. Through the exclusion of Python and Django, the focus remains on the dynamic implementation of Vue.js, highlighting my skills in creating engaging and interactive user experiences.
